## Bow saw for green wood cutting/ 45401- 30

Brand

Bellota

EAN code

8414299710960

Use

For cutting wet green wood and branches in general.  
For pruning and cleaning woody plants, mainly fruit trees and shrubs.

Bullet points

Saw bow with reinforced cross-section and hand guard for safe and comfortable cutting. An easy and straight cut is achieved thanks to the blade remaining taut, straight and centered during the cut. High-frequency induction tempered teeth for improved blade durability. Homogeneous teeth height for improved resistance and performance. American toothing blade for fast and easy cutting of green wood.

Description

Metallic bow saw, with American-toothed blade for cutting of green and damp wood. Reinforced bow section to ensure that it is sturdy and allows a straight and easy cut to be achieved. Hand guard for total safety during use.
